

ACT-24H Digital Handheld Wireless Microphone

Key Features

- Specific outline and color with ergonomic design in MIPRO's distinctive aesthetic style.
- Interchangeable capsule module with MIPRO produced premium condenser or dynamic options for easy and fast changeovers. The unique multi-layered metal grille instead of sponge foam protects the capsule against impact, rolling and pop noise, ensuring clarity of sound. The upper grille can be detached easily for cleaning and hygiene practices. It may accept other brands' interchangeable microphone capsule modules as well.
- World's first ACT™ function provides precise and rapid frequency sync to the receiver.
- The default gain setting is 0 dB = microphone capsule input sensitivity. High dynamic range for singing aloud without distortion.
