

# ACT-24R 2.4 GHz Digital Receiver

## Features

- Industry's most compact and smallest housing, lightweight and rugged plastic case meets professional requirements.
- Stable digital modulation circuitry. All frequencies are located in one band. It can skip most Wi-Fi frequencies and eliminates interference from 2.4 GHz communication products.
- True diversity receiving technology eliminates signal dropout.
- A backlit graphic LCD screen displays various function settings.
- Pairs with new handheld and bodypack transmitters that can be charged via USB Type-C. Replacing the battery or recharging are quite easy.
