

# AT-20 Coaxial Antenna

## Features

- A 1/2 wave coaxial antenna features wideband, omnidirectional reception.
- Directly mounts on the receiver for increasing sensitivity and operating range.

## Specifications

Frequency Range	UHF 480 ~ 960 MHz
Antenna Gain	2.15 dBi
Connectors	TNC male
Impedance	50 $\Omega$
Note	Refer to the actual product in the event of product description discrepancy.
