

MP-8 Charger

Features

- An intelligent single-slot charger that provides efficient and safe charging. Comes with constant voltage and current limiting capabilities, and a reverse polarity protection circuit to prevent charging errors.
- A red/green LED indicator that shows the charging status. The LED does not glow when no battery is detected.
- Designed exclusively for MIPRO rechargeable transmitters and bodypack receivers.

Specifications

Input Voltage	DC 12 – 15 V / 1 A
Battery	One 18500 Li-ion battery
Charge Current	Approx. 500 mA by the regulation current. Termination by 20% regulation current
Current Consumption	Max. 600 mA / 12 V
Dimensions	87 × 75 × 92 mm (W × H × D)
Weight	Approx. 240 g
Note	Refer to the actual product in the event of product description discrepancy
