

MU-506HS Unidirectional Headworn Microphone

Features

- Lightweight 6 mm capsule features high dynamic range and low distortion.
- The unidirectional capsule unit reduces environment noise, increases the S/N ratio and improves sound clarity.
- The newly designed adjustable frame offers stable and comfortable wearing, suitable for lectures, stages or sports applications.
- The microphone boom is easily detachable from the frame and can be worn on the left or right side of the frame.
- The boom holder is fully rotatable so as to make adjustments in length, direction and angle for precise and optimum microphone positioning.
- The sweat-repelling ring and anti-pop sponge protect the capsule module.
- Standard MIPRO Mini XLR plug; other plug types can be requested upon availability.
