

ST-32 UHF Wind Instrument Transmitter Set

Features

- The ST-32 wireless saxophone transmitter is a SM-32 integrated with a transmitter for wireless transmission to the analog receivers of the ACT Series or the MA Series wireless PA system.
- Simply clamp the ST-32 transmitter module snugly with SH-10S clip to a saxophone or other wind instrument. The compact, lightweight ST-32 is easy to install and remove. Strategically placed in flexible positions, it will not interfere during performances.

Specifications

Wireless Transmission Type	UHF analog modulation
Frequency Range	UHF 480 ~ 934 MHz
