

ST-32 UHF Wind Instrument Transmitter Kit

Features

- The ST-32 wireless saxophone transmitter is made by integrating an SM-32M microphone module with a transmitter. Compatible with the analog receivers of ACT Series or MA Series wireless PA systems.
- Simply clamp the ST-32 snugly with the SH-10S clip to a saxophone or other wind instrument. Easy to install and remove, the compact ST-32 can be strategically placed in flexible positions for great sound reproduction.
