

# ACT-24R

## 2.4 GHz Digital Receiver

### FEATURES

- Employs digital wireless transmission technology to deliver stable and clear tour reception quality.
- Preloaded with 12 channels for quick switching, ideal for one-to-many tour guide applications.
- True diversity receiving design significantly enhances reception stability and anti-interference performance.
- Equipped with 3.5 mm stereo headphone jack for natural, clear sound and comfortable listening.
- Built-in 18500 lithium battery supports long operating hours and convenient charging via dedicated charging dock.
- Backlit LCD screen with simple control interface for intuitive and quick setup.
- Low transmission latency under 4 ms and a dynamic range up to 106 dBA ensure synchronized sound with rich detail.
- Lightweight design with neck strap for easy carrying, ideal for tours, teaching, conferences, and similar applications.

### SPECIFICATIONS

|                      |   |
|----------------------|---|
| Frequency Range      | ISM 2.4 GHz   |
| Channels             | 12 preset channels                                  |
| Receiving Mode       | True diversity                                      |
| Earphone Jack        | 3.5 mm stereo                                       |
| Dynamic Range        | ≥ 106 dBA   |
| Latency              | < 4 ms  |
| Display              | Backlit LCD   |
| Control Interface    | MODE / SET buttons, volume control, ACT sync button |
| Power Supply         | One 18500 Li-ion battery                            |
| Optional Accessories | Earphones, charging docks                           |
| Dimensions           | 63 × 85 × 26 mm (W × H × D)                         |
| Weight               | Approx. 84 g  |
