

# CM-10E

## Erhu Microphone Set

---

### FEATURES

- Optimized for erhu pickup with custom-designed condenser capsule, providing accurate and natural sound reproduction.
- Patented shockmount system minimizes handling and impact noise, securely mounted without damaging the instrument.
- Wide dynamic range handles up to 142 dB SPL, capturing expressive tonal detail.
- Compatible with MIPRO bodypack transmitters for wireless transmission, or with MJ-53 adapter to XLR for 48 V phantom power.
