

E-10S

Tour Guide Stereo Earphones

FEATURES

- In-ear design with passive noise isolation effectively reduces ambient interference for clear tour guide audio.
- Lightweight and comfortable for long-duration wear, ideal for travel tours and conference interpretation.
- Seamlessly integrates with MTG-100R / MTG-100Ra digital tour guide receivers for convenient use.
- Includes silicone ear tips for a secure fit, with additional replacements available separately.
