

# MA-727

## New Luxury Wireless PA System

### FEATURES

- MTM two-way speaker system delivers balanced sound with detailed clarity, ideal for small to medium-sized indoor and outdoor events.
- Built-in DSP audio processor with jog control allows instant switching between speech and music modes, adapting quickly to lectures, classrooms, and meetings.
- Modular design supports receiver, transmitter, and player modules, with independent volume control for external sources and wired microphones.
- Receiver module offers multiple frequency band options and can be expanded to 2 transmitters, meeting basic wireless amplification needs.
- Optional transmitter module enables synchronization with multiple active speakers for extended coverage.
- Built-in Bluetooth and TWS stereo technology support wireless stereo music playback.
- Dual power supply with rechargeable lithium battery and AC input ensures long-lasting operation.
- Equipped with foldable handle and wheels for convenient mobility, plus tripod mount for flexible installation.

### SPECIFICATIONS
