

MU-506HS

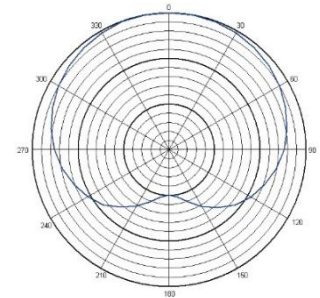

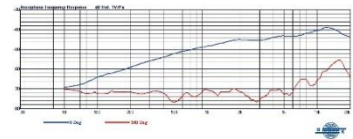

Unidirectional Headworn Microphone

FEATURES

- Cardioid polar pattern effectively suppresses ambient noise, delivering clear and focused sound.
- Dual-earhook and adjustable frame design provide stable, comfortable fit for stage or active use.
- Wide dynamic range and low distortion faithfully reproduce natural vocals.
- Detachable capsule mounts on either side and allows full adjustment of length, direction, and angle.
- Sweat-repelling ring and replaceable foam windscreens protect the capsule and extend service life.
