

MM-204J

Gooseneck Microphone

FEATURES

- Unidirectional condenser capsule effectively reduces ambient noise and feedback.
- Patented multi-layer grille design minimizes plosive sounds and protects the capsule.
- Highly adjustable gooseneck design, ideal for conference rooms and various meeting venues.
- Standard 3-pin XLR connector ensures easy installation and high compatibility.
- Designed for use with mixers or conference systems equipped with +24 ~ 48 V phantom power.

SPECIFICATIONS

Capsule Type	Condenser
Polar Pattern	Unidirectional
Capsule Diameter	10 mm
Sensitivity	-46 ± 3 dBV/Pa
Frequency Response	50 Hz – 18 kHz
Max. SPL	142 dB SPL
Output Impedance	200 Ω
Output Jack	3-Pin XLR
Compatible Devices	Mixers or conference systems equipped with phantom power
Power Supply	+24 – 48 V phantom power
Indicator	N/A
Gooseneck Length	385 mm
Weight	Approx. 170 g
