

MRM-70

UHF Analog Receiver Module

FEATURES

- Operates on the UHF band with 16 preset channels, offering long-range and stable reception.
- Equipped with auto-scan and ACT synchronization for fast and simple frequency setup.
- Utilizes antenna diversity technology to avoid signal dropouts and ensure reliable long-distance performance.
- Digital LED display provides clear readouts of channel, RF and AF signal strength.
- Modular design enables direct installation in MIPRO portable PA systems for simplified setup and maintenance.

SPECIFICATIONS

Frequency Range	UHF 480 – 934 MHz
Channels	16 preset channels
Display	LED numeric channel, RF indicator and AF levels
Channel Setting	Manually set up the desired channel or scan for an open channel
Frequency Synchronization	ACT sync
Receiving Mode	Antenna diversity
S/N Ratio	> 100 dBA
Frequency Response	50 Hz – 18 kHz
Compatible Models	MIPRO MA Series
Dimensions	75 × 35 × 141 mm (W × H × D)
Weight	Approx. 102 g
