

MU-53HNP

Unidirectional Headworn Microphone

FEATURES

- Cardioid polar pattern effectively reduces ambient noise, ensuring clear and focused vocal pickup.
- Dual-earhook design with two frame sizes provides stable and comfortable wearing.
- Wide dynamic range and low distortion faithfully reproduce natural vocals.
- Boom arm mounts on either side and allows full adjustment of length, direction, and angle.
- Replaceable foam windscreen reduces breath and wind noise while maintaining audio clarity.
- Equipped with MIPRO 3.5 mm output connector, specially designed for MTG Series tour guide systems.

SPECIFICATIONS

Type	Condenser
