

MU-23P

Omnidirectional Headworn Microphone

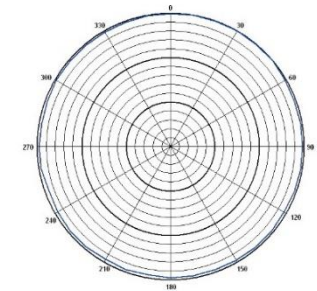

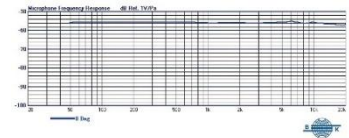

FEATURES

- Omnidirectional polar pattern with excellent off-axis response provides full-range pickup.
- Dual-earhook frame design available in three sizes (L/M/S) offers lightweight comfort and stability.
- Ultra-slim boom arm mounts on either side and allows full adjustment of length, direction, and angle.
- Wide dynamic design delivers natural, clear vocals across an extended frequency range.
- Sweat-repelling ring and replaceable foam windscreens protect the capsule and extend service life.
- Equipped with MIPRO 3.5 mm output connector, specially designed for MTG Series tour guide systems.
