

MU-13

Single-Sided Fixed Omnidirectional Headworn Microphone

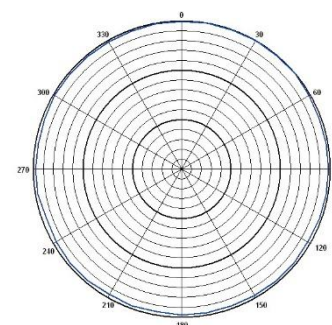

FEATURES

- Omnidirectional polar pattern with excellent off-axis response provides full-range pickup.
- Single-earhook design available in three sizes (L/M/S) ensures a secure and comfortable fit.
- Ultra-slim boom arm allows easy installation or removal and full adjustment of length, direction, and angle.
- Wide dynamic design delivers natural, clear vocals across an extended frequency range.
- Sweat-repelling ring and replaceable foam windscreen protect the capsule and extend service life.
