

MU-57H

Waterproof Headworn Microphone

FEATURES

- IP57 dustproof and waterproof design; recommended for use with waterproof MIPRO bodypack transmitters for full performance.
- Omnidirectional polar pattern with excellent off-axis response provides comprehensive pickup coverage.
- 4.5 mm ultra-miniature capsule design fits versatile wearing applications.
- High-fidelity audio with wide frequency range, high dynamics, and fast transient response for bright, clear vocals.
- Detachable capsule mounts on either side and allows full adjustment of length, direction, and angle.
- Sweat-repelling ring and replaceable foam windscreen reduce breath and wind noise, ensuring clear audio.
- Adjustable frame design provides stable and comfortable wearing, ideal for podiums, stages, or active use.
