

ACT-240H

2.4 GHz Digital Handheld Transmitter

FEATURES

- Handheld transmitter for MIPRO's 2.4 GHz digital series receivers and portable wireless PA systems, ideal for teaching, presentations, and small meetings.
- Ergonomic matte black metal housing provides a comfortable grip, ultra-low handling noise, and a professional appearance.
- Patented multifunction power module integrates the power switch and LCD display for intuitive operation, showing channel, battery status, and AF level indicators.
- Equipped with MIPRO's unique capsule design—removable upper grille and threaded lower grille for durability and clean audio.
- Standard with MU-70A supercardioid condenser capsule module; supports interchangeable MIPRO condenser or dynamic capsule modules and compatible ones from other brands.
- Incorporates MIPRO's exclusive ACT™ function for quick and precise frequency synchronization.
- Patented dual-purpose battery compartment supports quick switching between AA and rechargeable Li-ion batteries.
- USB Type-C charging with foolproof protection circuitry allows direct cable charging.
- Lower housing features a replaceable color-coded ID ring for channel identification. A patented antenna cover houses a high-efficiency wideband transmitting antenna.

SPECIFICATIONS

Frequency Range	ISM 2.4 GHz
Bandwidth	83.5 MHz
Display	Backlit LCD displays channel, battery status and AF signal levels
Control Interface	ACT sync sensor
Mic. Capsule Modules	MU-70A condenser or other compatible capsule modules
RF Power Output	2 mW / 10 mW switchable (country dependent)
Power Supply	One 18500 Li-ion battery or two AA alkaline
Battery Charging	MP-800 / MP-820 charging dock or USB Type-C
Dimensions	51 × 272 mm (Ø × L)
Weight	Approx. 320 g
