

# MM-204L

## Gooseneck Microphone

---

### FEATURES

- Unidirectional condenser capsule effectively reduces ambient noise and feedback.
- Patented multi-layer grille design minimizes plosive sounds and protects the capsule.
- Equipped with an LED ring indicator for clear speech status display.
- Highly adjustable gooseneck design, ideal for conference rooms and various meeting venues.
- Features a 4-pin XLR connector, designed for use with BC-100 II or BC-T Series wireless conference microphone bases.

### SPECIFICATIONS
