VM-10L

Violin / Viola Microphone Set

FEATURES

- Omnidirectional condenser capsule engineered for violin and viola pickup, capturing natural resonance and tonal richness.
- Lightweight custom clamp attaches securely at the tailpiece, ensuring precise positioning without damaging the instrument.
- Wide dynamic range handles up to 135 dB SPL for detailed, authentic sound reproduction.
- Compatible with MIPRO bodypack transmitters for wireless use, or with MJ-53 adapter for standard XLR connection powered by 48 V phantom power.
